Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Like my husband, also a Tracfone customer, I find it very comforting that we both have a very economical and convenient mobile phone system for emergency use. We are not of the yopunger generation that use these things constantly.

Also, please realize that many older folks rely on wireless service for safety and security, not interstate calls.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.
